Seven Lessons from the Seven Summits Kim Hess

Seven billion people inhabit our planet, and less than 60 have ever completed the Explorers Grand Slam, and only 12 of those are women. So writes Kim Hess on her website - <https://kimhessclimbs.com>. Ms. Hess set the goal of climbing the Seven Summits - the tallest mountain on each of the seven continents - and did so by the time she was 33 years old. Next are the Explorers Grand Slam, at the North Pole and the South Pole. A graduate of the University of Colorado, Kim Hess is a trailblazer and an inspirational speaker who exemplifies the power of a positive attitude. Through entertaining tales of adventures in climbing the Seven Summits, she takes audiences through a series of seven everyday lessons for life, lessons that are applicable to anyone at any age. Using breathtaking and awe-inspiring visuals, humor and candor, Ms. Hess focuses on strategies for overcoming obstacles and adversity, defining success and failure, and teamwork.

Global Climate Change: What We Know and What We Don't Know.....David Helfand

Dr. David J. Helfand is Chair of the Department of Astronomy at Columbia University. Dr. Helfand's science course, part of Columbia's famed Core Curriculum, is taught to all Columbia's first year students. He received the University's 2001 Presidential Teaching Award and the 2002 Great Teacher Award from the Society of Columbia Graduates. Dr. Helfand spent three years at the University of Cambridge, most recently as the Sackler Distinguished Visiting Astronomer, and was a visiting scientist at the Danish Space Research Institute and the University of Copenhagen. He has authored more than 200 scientific publications. Dr. Helfand served as a Visiting Tutor and later as President and Vice-Chancellor at Quest University Canada, Canada's first independent, non-profit, secular university. He is also working to expand this model, creating new universities in England, Wales, and Vietnam. His recently published book, *A Survival Guide to the Misinformation Age*, provides tools to combat the tsunami of mis- and dis-information, and is recommended for all informed citizens.

Under the guidance of Margaret Lawler Waterman, a group of University of Michigan women graduates established the Waterman Alumnae Group in the fall of 1953. Nineteen years later the Waterman Town Hall Series came into being, as the group's main fundraiser. Then, at the beginning of this century, another milestone resulted with the formation of the Waterman Endowment, which has added additional financial assistance and has helped to secure Waterman scholarships for University of Michigan students forever.

Since its inception Waterman has awarded over three hundred fifty (350) scholarships to need-based, deserving students. Membership is open to the public.

Lecture/Luncheon Series Policy
